Five Nasty Germs

Five nasty gems were eager to play.
But then came the water and washed one away.

So four nasty gems tried to have some fun,
Until the soap came along and one had to run.

Then three nasty gems tried to make you sick,
But along came the scrubbing and one couldn’t stick.

When those two nasty gems got into a fight,
The rinse came along and washed one out of sight.

The last nasty gem thought it couldn’t be seen,
But along came a towel and the hand was clean!
